

www.thechinastone.com

The bottom of the page features a decorative graphic consisting of several overlapping, wavy bands of blue and grey. The bands are layered, with some appearing more prominent than others, creating a sense of depth and movement. The colors range from a light, misty blue to a darker, more saturated blue.

Introduction

Welcome to the latest edition of the **China Stone Product Reference Guide**

This portable and easy-to-use reference tool, summarizes information about our precision calibrated natural gemstones range offered directly via our award-winning trade-only website, and through our channel partners.

Inside the guide, you will find most current information about our product ranges, technical specifications, colors, and ordering information.

For questions or more information about the **China Stone Product Reference Guide**, visit <http://www.thechinastone.com>.

When you register, you will have access to PDF and HTML versions of this guide that you can download or request express delivery of hardcopy at your office at no charge.

Product and service availability

From online ordering to assisted procurement, we are here to help. Fast and easy to use, our award-winning E-Procurement system offer diverse purchasing options to meet your specific needs and requirements. If you don't have an account with us, please ask member of the staff for account form or register online at:

www.thechinastone.com

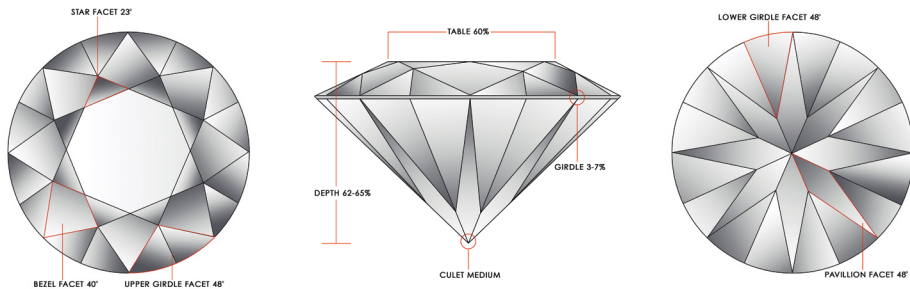

The benefits of registering and managing your orders online include:

- Preferential tailored pricing
- Flexible payment methods
- Exclusive business discounts
- Dedicated account manager
- Secure & private ordering
- Real-time price availability
- Real-time inventory access
- Shorten order cycle times
- Live order and invoice activity
- Cut down significantly on errors

How to use the product matching and reference guide

The China Stone product matching and reference guide is provided to facilitate the color communication for precision natural gemstones supplied by China Stone.

Each product represents precision-cut natural colored gemstone variety and color tolerance range identified by a Pantone ID and Pantone color swatch. The GIA GemSet notation represents a baseline color of the product.

Prices are available and sale orders fulfilled only by a Product ID. Custom orders with zero color tolerance is subject to a minimum contract amount.
